Product Listing 2010

matt cutting machinery - american alto

Alto's famous inexpensive matt cutting system is designed to make matt cutting and cutting, ruling, lining, etc. of card and paper easy for the amateur. No experience necessary to operate the machine as it comes with a comprehensive booklet.

F380.27 Alto Matt Cutting Machine

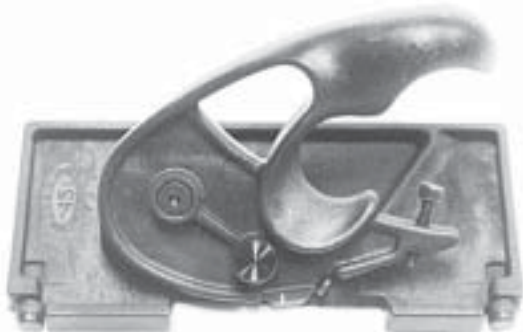

Complete with cutter and guide assembly.

F380.23 Alto Matt Cutting Blades

For best cuts, replace blade after every four to five matts. Pack of 5.

F380.24 Alto Matt Cutting Handpiece

This is a revolutionary new cutting head with adjustable blade depth for such techniques as V-grooving and special effects on matt cutting. Available by itself without the machine, its major advantage is its professional scythe-like swing action (similar to the expensive Logan 3000) minimising effort on starts with perfect corners with no waves. Its main advantage over the Logan 3000 is its very low price and the ability to be able to view the guide line as you cut, thus greatly simplifying starts and stops. Use with a T-square.

F380.24

F380.26 Alto Complete Cutting System

Includes F380.21, plus oval and circle cutters.

Screw on hangers for attachment of any object to walls, etc. Sold 100 per pack.

F382.27

F382.28 Foam Core Hangers

These American patented hangers simply push into the Foamcore and lock in with fishhook-like teeth. The devices have a hole for attachment to a nail or screw on to a wall or cupboard. Sold per 100.

F382.28

gilding and jewellery materials

NAS supply various gilding supplies as they are popular in painting, printmaking and collage. Transfer gold sheet, as well as the more difficult leaf books, are stocked, together with the imitation gold leaf (Dutch Gold) and Dutch Silver sheet and Gold and Silver powders.

F315.166 Gilding Pack - Sennelier

Real gilding underbole pack.

F315.01 Gold Leaf Books - 23 Karat

25 sheets. Each

F315.02 Transfer Gold - 23 Karat

Leaf books of 25 sheets, 85mm square. Each sheet is lightly adhered to special paper. To transfer, simply rub and burnish onto a sized base. For those starting out in gilding, this transfer gold is the easiest for beginners.

F315.03 Dutch Gold Leaf

Leaf books of 25 sheets, 140mm square. These sheets are much thicker than the real gold and hence easier to handle. Seal with lac medium to prevent tarnishing. Quite inexpensive. Packed in boxes of 20 books; priced per box. Use cotton gloves (see E107.1).

F315.03

F315.04 Silver Leaf

Available in sheets, 85mm square, in books of 25 sheets.

F315.04

F315.05 Gilder Knife

Wooden handle. Use to cut leaf to size.

F315.051 Gilder's Cushion

Leather cushion for cutting leaf.

F315.062 Agate Burnishers

Set in brass holder to burnish gold leaf. Various shapes available.

F315.062

F315.9B Gold Size - Acrylic

Carefully paint onto prepared sealed surface in a dust-free room, making sure that the coat is even and used sparingly with a stiff short-haired brush. When clear, apply leaf. Available in a 250ml bottle.
